Bovie Electrosurgical Pencils

- Button, Rocker, and Foot-Control Models
- Safety Designed Into Every Pencil
- Rock-Solid 3-Prong Connector
- Removable 2.3 mm ($3/32$ ") Shaft Electrodes
- Ergonomic Design

All Bovie electrosurgical pencils feature removable stainless steel electrodes with standard 2.3 mm ($3/32$ ") shafts. They are provided with either a standard blade or needle electrode and a rock-solid 3-prong connector. To give you the exact switching mechanism you desire they are available in three versions: button, rocker, or foot-control (single-pin connector on foot-control model).

Ergonomically designed, each pencil gives you the balance and feel you demand, reducing stress and allowing you to concentrate on the procedure at hand.
